Create a Container

The screenshot shows the 'New Container' dialog box overlaid on the main application interface. The dialog box has a title bar with a close button (X). It contains the following fields:

- Name: A text input field.
- Default Funding Source: A dropdown menu with 'Select Funding Source' as the current selection.
- Effective Dates: Two date input fields labeled 'From' and 'To' with asterisks, indicating they are required.
- Description: A large text area for entering the container's description.
- Buttons: 'Save' (green) and 'Cancel' (grey) buttons at the bottom.

The background application interface shows a sidebar with 'Containers' and 'Container Settings' sections. The 'Containers' section lists 'Quarantine', 'Visible Containers', 'MeasuresForApril', 'Container1', and 'Demo1_P2'. The main area displays a table of measures with columns: 'LETIOI', 'NO# OF UN', 'KWH SAVIN', and 'REIMBURS'. The table contains multiple rows of data, including 'Measure16' and 'Measure17'.

Measure Instance Details

The screenshot shows the 'View Measure Detail' dialog box. It has a title bar with a close button (X) and a tabbed interface with the following tabs: 'User Input', 'Details', 'Procost', 'Documents', and 'Comments'. The 'Details' tab is currently selected. The 'Details' tab contains the following fields:

- Finding Source: A text input field.
- Status: A text input field with 'Status1' entered.
- Attribute Values: A text input field with 'Attribute1,Attribute2' entered.
- Creation Date: A date input field with '02/01/2011' entered.
- Created By: A text input field with 'Creator1' entered.
- Last updated date: A date input field with '02/02/2011' entered.
- Last updated by: A text input field with 'Admin' entered.
- Buttons: 'Remove' and 'Cancel' buttons at the bottom.

DETAILMEASURESCOMMENTSCOMMENTS

Add New Comment

cotr 4/18/2011

BPA is proposing to rebuild 54 miles of its Creston-Bell 115-kilovolt transmission line that runs through Lincoln and Spokane counties, Wash. The wood poles and other equipment on the line, which was originally built in 1942, have gradually deteriorated due to exposure to the elements.

Reply

utility 2/22/2011

When you put in the major line you stated that the single pole line would be taken out. That has not been done! Is there a reason? When can we expect you to complete your last project. Response requested.

EditDeleteReply

utility 2/26/2011

Please have your environmental studies look at radiation levels produced by high voltage power lines. Please send reply to us about health risk from the power lines

EditDeleteReply

utility 2/21/2011

Please have your environmental studies look at quail habitat near Fairwood area. Ability to use mountain bikes under lines.

EditDeleteReply

superadmin 2/25/2011

i think is would be fine and beneficial to the people specially on business man in my own view point
